Astrophysics

Astrophysics is the branch of astronomy that deals with the physics of the universe, including the properties and interactions of celestial bodies. It explores topics such as the life cycle of stars, the formation of galaxies, and the nature of black holes. Astrophysicists use observational data and theoretical models to understand the fundamental processes governing the cosmos.

University/College	Country	Degree Offered	Entry Requirements	Application Process	Special Conditions/Notes
University of Cambridge	UK	BA Astrophysics	A-Level: AAA (including Maths and Physics)	UCAS	Interview required.
University of Edinburgh	UK	MPhys Astrophysics	A-Level: AAA (including Maths and Physics)	UCAS	No special conditions.
Imperial College London	UK	MSci Astrophysics	A-Level: A*AA (including Maths and Physics)	UCAS	No special conditions.
University of Manchester	UK	MPhys Astrophysics	A-Level: AAB (including Maths and Physics)	UCAS	No special conditions.
University of Glasgow	UK	MSci Astrophysics	A-Level: AAB (including Maths and Physics)	UCAS	No special conditions.
University College Dublin (UCD)	Ireland	BSc Theoretical Physics and Astrophysics	Irish Leaving Cert: H4 in Maths and Physics	CAO	No special conditions.
Queen's University Belfast	Northern Ireland	BSc Astrophysics	A-Level: ABB (including Maths and Physics)	UCAS	No special conditions.
University of Leicester	UK	MPhys Astrophysics	A-Level: AAB (including Maths and Physics)	UCAS	No special conditions.
University of Birmingham	UK	MSci Astrophysics	A-Level: AAB (including Maths and Physics)	UCAS	No special conditions.
University of St Andrews	UK	MPhys Astrophysics	A-Level: AAB (including Maths and Physics)	UCAS	No special conditions.

**Please check all current entry requirements with the universities.
