Marine Biology

Marine Biology is the scientific study of marine organisms, their behaviors, and interactions with the environment. It covers a wide range of topics, from the smallest microorganisms to the largest marine mammals. Marine biologists work to understand the health of marine ecosystems, contributing to conservation efforts and the sustainable management of ocean resources.

University/College	Country	Degree Offered	Entry Requirements	Application Process	Special Conditions/Notes
University of St Andrews	UK	BSc Marine Biology	A-Level: AAB (including Biology and Chemistry)	UCAS	No special conditions.
University of Southampton	UK	BSc Marine Biology	A-Level: ABB (including Biology and Chemistry)	UCAS	No special conditions.
University of Exeter	UK	BSc Marine Biology	A-Level: ABB (including Biology)	UCAS	No special conditions.
Bangor University	UK	BSc Marine Biology	A-Level: BBB (including Biology)	UCAS	No special conditions.
University of Liverpool	UK	BSc Marine Biology	A-Level: ABB (including Biology)	UCAS	No special conditions.
Queen's University Belfast	Northern Ireland	BSc Marine Biology	A-Level: BBB (including Biology)	UCAS	No special conditions.
University College Cork (UCC)	Ireland	BSc Marine Biology	Irish Leaving Cert: H4 in two science subjects	CAO	No special conditions.
University of Plymouth	UK	BSc Marine Biology	A-Level: BBB (including Biology)	UCAS	No special conditions.
Heriot-Watt University	UK	BSc Marine Biology	A-Level: BBB (including Biology)	UCAS	No special conditions.
Aberystwyth University	UK	BSc Marine and Freshwater Biology	A-Level: BBB (including Biology)	UCAS	No special conditions.

**Please check all current entry requirements with the universities.
